The agencies,

You are soliciting a response on a further set of onerous regulation on MY MONIES.

So I will keep the response simple and direct. Stay out of my wallet and quit trying to STEAL the fruits of my labor. That sums it up pretty much, I do not desire your socialism, welfare or theft of my hard work. I do not require a nanny nor do I want one. So instead of trying to social engineer and steal my money why do you not consider actually cutting ALL departmental budgets by 20 or 30 percent and fire a few Bureaucrats.

File under public comment about the proposed theft of IRA's and 401(k)'s.

Sincerely,
Private Citizen
